12	VOTE OF THANKS BY THE PRINCIPAL	

PARENTS FEEDBACK:

All the parents were happy to their childrens' performances and activities in the photo album. A small oral diagnostic test was run to understand effective learning outcome of the session.

Parents said that they would rate the session 10 out of 10 as they completely understood our points of views and the changes in the UNIFORM ASSESSMENT SYSTEM.

A few parents were asked questions about periodic test, note book assessment, subject enrichment activity and term end exams. They were able to reflect 100 % learning outcome by answering the questions correctly.

After the session, parents met individual teachers and discussed about individual needs of their children.

The parent orientation meeting was successfully completed and its purpose is achieved to a large extent.
