

English debate competition

Our school organised an English debate competition on August 1st 2016. It was a house wise competition with topics as varied as 'communication gap', 'generation gap' and 'value of discipline in life'. Students were very much interested in taking part. Whole heartedly they presented their views. It was organised with the purpose to boost their confidence and to inculcate qualities in themselves and to increase their knowledge. It was a successful competition. Later on result was announced in which Green House got the First position and Blue House got the second position.
