

On Thursday, November 17, 2016 Dr. Vinita Meena, a renowned medical officer visited the school in order to spread awareness about diseases amongst the children. First of all a brief introduction was given by her. She interacted with students of classes VIII, IX and X. She gave valuable information to the students related to health issues. Later on she discussed about diseases like Chikungunya, Viral Infection and Typhoid. After that she solved the queries of girls related to their health problems separately and gave suggestions. All the students gained a lot during the session.
