

## Visit to Bank

"Banking is just not only depositing cash or withdrawing money but a vast and wide field." On February 6, students of our school got the opportunity to visit Bank of Broad, Jhalawar. The purpose of the visit was to make the students aware about the various banking activities. The students got to know more about how the bank operates and how savers money circulates and channelized by way of making advances to needy customers/borrowers. Students were also made familiar with loan process and its other departments like forex departments, RTGS/NEFT as well.

It was also informed to students that not only today there is great scope in the banking sector but also it is going to increase with a rapid pace in near future. A light was also thrown on career related aspects in the banking and non-banking sector as well after working in a banking sector, how student's can plan their future by removing future uncertainty.

The purpose of the visit was to make students of XI Commerce aware about what actually bank is. Overall it was really a very wonderful learning experience.
