

Pallavan School , Jhalawar

24th April,2018

A “Soft board decoration competition” was held for the classes VI to XII. The purpose of the competition was to promote creativity and responsibility among young students. Instructions regarding the competition were given to the students one day earlier.

The teams had to prepare their soft boards on the themes “Environment”, or “Save The Earth” This competition not only helped them display their artistic talents, but also brought them together as a team and the students performed their task with unity. The students were successful in adorning their boards and conveying the right message. Their work was judged on the criteria of quality, meaning, materials used and neatness.

The result is yet to come.
